MANAGING TEXT

October 16, Day 3: PRIVACY

8:45am

On his way to school Jo sees a heron taking off. **Lucky** he has his cell phone handy!

GRAPHIC: Jo's phone. There is a photo of a heron taking off from a pond with the handlebars of Jo's bike in the foreground (Jo took the photo while he was riding his bike).

Bubble text: Jo wants to show his friends the great photo he took, but he knows his parents will get mad if they see that he was using his phone while riding his bike. What should he do?

What should Jo do?

- 1) Show the photo to his friends on his phone.
- 2) Use privacy settings when he posts the photo so that only his friends can see it
- 3) Post the photo using a “disappearing photo” app

Consequences for: Show the photo to his friends on his phone (2/2 points)

Messages in Jo's social media feed

- You messaged Matt: Sorry, my mom and dad would kill me if they knew I'd taken it from my bike!
- Matt messaged you: Hey man, thanks for showing me that pic. Can U send me a copy to show my Dad, he's crazy into birding.]

Feedback text:
How did Jo do?
Good thinking! Because Jo kept it offline, his parents didn't find out about the picture.

1. Transforming word scripts into .tsv

2. Enabling clients to edit .tsv

WORKING WITH A NON-ACADEMIC PARTNER

1. Coordinate diverging goals
2. Use modular approach to future-proof designs and facilitate evolving requirements
3. For games, balance learning and entertainment requirements

Thank you.
